

PDF technical sheet LUBER READY HIGH TEMP

High Temp

Single point automatic lubricator with electrochemical drive, particularly suitable for confined or inaccessible spaces. Flexible to operate, enabling optimum use of your equipment.

Main lubricant features

Type of lubricant	Grease
Consistency	2
Base oil	Semi-synthetic
Max lubricant service temperature	160 °C
Min lubricant service temperature	-40 °C
Viscosity at 100 °C	18 cSt
Viscosity at 40 °C	160 cSt

Main greaser features

ATEX certification	Yes
Capacity	125 cm ³
Diameter	58 mm
Distribution time	1 to 12 months
drive system	Electrochemical
Length	117 mm
Weight	0.22 kg
Max pressure	5 bar
Max operating temperature	60 °C
Min operating temperature	-20 °C
Lubricant name	High Temp
