

# Interflon Food Lube

Multi-purpose dry-film lubricant with MicPol® technology

Highly durable multi-purpose lubricating oil with MicPol® technology.  
For the lubrication of almost all moving parts, chains and cables.  
Suitable for use in food safe environments.

Nonfood Compounds  
Program Listed H1  
Registration 122875

Interflon Food Lube is an extremely versatile dry film lubricant. Resistant to high pressures and can be applied to dry or wet parts, leaving behind a highly durable dry film of lubricant which virtually eliminates friction and wear whilst preventing the formation of corrosion.

## Key Advantages:

- Excellent, long lasting protection against corrosion and wear at high pressure
- Strong resistance to water wash-out and spray off
- Resists dirt, dust and other contaminants
- Protects against rust and corrosion

## Applications:

- Chains
- Guide-ways
- Faucets
- Pulleys
- Hinges
- Conveyor belts
- Necklaces
- Many more...

Multi-purpose dry-film lubricant with MicPol® technology

## 1 product that replaces up to 10 conventional products:

- Penetrating oil
- Chain Spray
- Contact spray
- Gearbox spray
- Silicone spray
- Cutting oil
- Rust solvent
- Dry lubricant
- Graphite spray
- Corrosion protector

Nonfood Compounds  
Program Listed H1  
Registration 122875

### **Practical example:**

#### **Lubrication of filling plant flange rollers**

At a beverage filling plant, 42.000 bottles are sealed per day. The flange rollers of the screw-top bottle closing machine became resinous and, depending on the product being filled, had to be cleaned and lubricated several times a day.

#### **Our solution**

Interflon Food Lube

#### **Result:**

Using Interflon Food Lube lubrication only has to be applied once a day. This means a yearly saving of 40 hours unnecessary maintenance work.

**Wear is reduced to 50%.**
